ASSETS AND CAPABILITIES

- Conrail-served with direct connections to Norfolk Southern and CSX through long-term rail transportation service agreement
- 500,000 tons transported annually
- Permitted capacity to process 3,400 tons per day and up to 1.2 million tons annually
- More than 25 years of experience handling waste materials by rail with over 11 million tons safely transported

LOWER COST. BIGGER REACH.

Nationwide rail transport – it's a safe, efficient and budget-savvy method of delivering waste and recyclable materials to treatment, beneficial reuse or disposal facilities. The costs are low and the benefits high including reducing carbon footprints, streamlining fossil fuel use and minimizing the impact on community traffic.

TRANSPORTING FREIGHT. TRANSFORMING BUSINESS.

Utilizing the vast experience and history of our Environmental Protection & Improvement Company, LLC (EPIC) team, Synagro's nationwide rail transportation solutions provide the most straightforward, reliable and cost-effective way to transport.

Our comprehensive logistics support addresses the full range of your transportation needs including:

- Dewatered sewage sludge;
- Coal combustion byproducts including fly ash, bottom ash, boiler slag and flue-gas desulfurization gypsum (FGD);
- Contaminated soils (hazardous and non-hazardous);
- Low-level radioactive waste;
- Industrial/special wastes;
- Municipal solid waste;
- Construction and demolition debris (C&D);
- Industrial general commodities;
- ISO tank containers; and
- Drilling waste (cuttings and water).

Through our signature integrated transportation programs combining truck, rail and beneficial reuse/disposal facilities, Synagro brings you an effective solution to a wide array of transportation challenges. And we make it easy to track information and shipment status to satisfy business, operational and regulatory requirements.

PARTNER WITH SYNAGRO

When you are looking for the best biosolids and residuals solutions to serve your business and your community, Synagro has the proven solutions to help you succeed. Municipalities and industrial organizations like yours that want to make the best use of organic waste turn to Synagro. Across the United States, Synagro applies expertise and innovative technology to provide resource recovery solutions that meet the unique needs of customers and communities.

WHO WE ARE

Synagro is the country's preeminent provider of biosolids and residuals solutions services since 1986.

Headquartered in Baltimore, Maryland, we employ over 800 people in 34 states and service more than 600 municipal and industrial water and wastewater facilities.

HOW WE CAN HELP

Our professional and experienced staff members provide solutions for all aspects of biosolids and residuals management needs, from land permitting and soil analysis by our nationwide technical services team to facilities development by our in-house engineering staff. Synagro provides a comprehensive scope of customer focused solutions.
